

Avitech News Jan 2017

Aviation Technology Inc. (ATI) has moved its offices from Manchester NH to Hooksett NH!

Aviation Technology, Inc. and its Avitech® product line represents one of the world's leading sources of customized ground support test equipment, used to test hydraulic, lubrication, pneumatic, electrical and fuel-related aircraft components, as well as portable hydraulic power units for general aviation, commercial passenger and military aircraft.

This move is part of our rebranding strategy for the General Aviation industry which includes a focus on our competitively priced Hydraulic Power Units (HPU's) with available power ranges between 3HP – 100HP. The HPU's typically provide pressures for 3000 psi hydraulic systems, with several models equipped to run up to 5000 psi.
